PAGE'S PROLANDSCAPING SUPPLIES

Page's has partnered with nationally recognized companies that offer the perfect blend of value and quality. Our full line of Hydroseeding Products, Professional Fertilizers and Landscape Fabrics is a "turnkey" approach for all your landscaping supplies. All of our product lines are available either from our warehouse or as a Drop Ship Program. Please contact your sales representative or our customer service team for program details.

Thank you for choosing Page's Seeds!

PAGE'S DROP SHIP PRODUCTS

Page's Seeds is proud to offer these fine products in our drop shipping program:

Capital Forest Products, Inc. - Canadian Cedar & Pine Bark Mulch & Chips shipped from Canada. Capital Forest Products has over 20 years of experience servicing distributors, retailers & manufacturers in the Forest Product Industry.

Dutch Valley Growers- With over 70 years of experience and into its third generation of growers, Dutch Valley is the definition of expertise not only in the commercial production of sets and bulbs, but in the development of profitable retail products. Growers, shippers & exporters of onion sets, shallots & garlic since 1933.

Kelly Wholesale Nurseries, Inc.- Hardy West Coast and New York plants for garden centers. Heavy bare root and potted plants and subzero roses.

Netherland Bulb Company - Netherland Bulb Company is a wholesale supplier of Dutch bulbs and bare root perennials direct from the Netherlands. We have been serving the U.S. market with quality bulbs and efficient service for over four generations.

Spring Valley Greenhouses, Inc. - Spring Valley Greenhouse has been producing quality clematis and vines since 1981 and currently is the largest wholesale producer of clematis in North America.

K. Van Bourgondien & Sons, Inc. - High quality Dutch flower bulbs and perennials at discount prices.

Luc Cléroux - This is Canada's premier greenhouse that supplies the U.S. and Canada with premium annuals, perennials, hanging baskets, and more.

MISCO Home and Garden - MISCO Enterprises is a well established manufacturer and supplier of lawn and garden products to the home center retail trade.

Central Fiber - Central Fiber Corporation™ is an environmentally based manufacturer of products made primarily from post consumer newsprint and virgin hardwood chips. Central Fiber Products™ can be purchased from our warehouse or drop shipped directly to your project site.

Dewitt - Dewitt Company Landscaping products and plant fabrics are the number one choice of professionals in the Lawn & Garden Industry. Dewitt's high performance products save time in long term maintenance and are environmentally safe for the demanding homeowner.

Page's has a long standing history of providing high performing Commercial & Residential Grass Seed Blends. Whether your project calls for Turf-Type Perennial Rye or Elite Bluegrass, you will find Page's grass seed products formulated to meet your application requirements. We offer a wide range of Straight grasses, Legumes, Clovers and Forage grasses. If your project requires a specific mix, we can provide you with a "Custom Blend" specific to your project. Just give our turf manager or customer service your specs and we will be glad to provide you with availability and pricing.

When your project goes beyond "seed", Page's is your complete source of quality Hydro Seeding supplies, Professional Fertilizers and Landscape Fabrics. Contact your sales representative or our office for a complete product list and programs.

Black Beauty

Black Beauty produces a dark green turf naturally, with improved disease resistance and drought tolerance. It grows well in clay or sandy soils and in full sun or partial shade.

50% Dakota Tall Fescue
25% Black Magic Tall Fescue
25% Tombstone Tall Fescue
100% **50 lb. 15,000 sq. ft. #35-10316**

Black Beauty Ultra

Black Beauty Ultra seed mixture germinates faster and fills in damaged lawn areas better. The secret to Black Beauty Ultra's success is species diversity. My Turfgrass Research Program has bred Kentucky Bluegrass and Perennial Ryegrass that are so dark-green in color and uniform in appearance that they are worthy of the name Black Beauty.

30% Dakota Tall Fescue ~ 3 lb. 1,200 sq. ft. #35-10321
30% Taos Tall Fescue ~ 7 lb. 2,800 sq. ft. #35-10322
20% Tombstone Tall Fescue
10% Blue Tastic Kentucky Bluegrass
10% Frontier Perennial Ryegrass
100%

Full Sun

Full Sun mixture will provide a long-lasting lawn of the highest quality. Highest ranking Endophytic varieties deter damage from insects.

20% Deep Blue Kentucky Bluegrass
20% Frontier Perennial Ryegrass
20% Darkstar II Perennial Ryegrass
20% Hood Chewings Fescue
10% Eugene Creeping Red Fescue
10% Carmen Chewings Fescue
100% **3 lb. 2,550 sq. ft. #35-10860**
 7 lb. 5,950 sq. ft. #35-10880

Sun & Shade

Our best selling **Sun & Shade** mixture will grow well in sun and partial shade areas. Wide adaptability and elite varieties make this our most popular mixture.

20% Carmen Chewings Fescue
20% Frontier Perennial Ryegrass
20% Hood Chewings Fescue
15% Darkstar II Perennial Ryegrass
15% Deep Blue Kentucky Bluegrass
10% Eugene Creeping Red Fescue

LAWN SEED BUYERS GUIDE: HELPFUL FACTS ABOUT LAWN GRASSES

VARIETY & CHARACTERISTICS E=Excellent G=Good F=Fair P=Poor	SEEDING RATE LBS. PER 1000 SQ. FT.		Blade Texture	General Purpose	Quick Cover	Shaded Areas	Heavy Use	Low Maintenance	Terraces Slopes
	New Lawn	Over- Seeding							
98/85 Kentucky Bluegrass Common bluegrass - a long-time favorite for fertile, well-drained soils. Requires moderate to high fertilization for best color and turf quality. Goes dormant in hot, dry weather unless watered. For sun to light shade.	4	1-2	Med- Fine	E	F	G	G	F	G
Baron Kentucky Bluegrass A high performance bluegrass providing quick germination, dense growth and dark green color. This durable variety shows excellent appearance and good disease resistance. Use in sun to semi-shade.	3-4	1-2	Fine	E	G	G	G	G	G
Guinness Kentucky Bluegrass A moderately dark green Kentucky Bluegrass variety that exhibits early spring green up, fine leaf texture and the fastest establishment of Kentucky Bluegrass varieties.	2-3	1-2	Fine	E	G	G	G	G	G
Merit Kentucky Bluegrass A moderately aggressive variety producing dense, luxurious, medium green turf. Early spring green up. Adapts to high or low maintenance. Disease and insect tolerant. Use in sun to light shade.	3-4	1-2	Fine	E	F	E	G	E	G
Dragon Kentucky Bluegrass A superior overall quality Bluegrass, fast establishment and strong weather tolerance make this an excellent choice for sport fields and high traffic areas.	3-4	1-2	Fine	E	G	G	E	G	G
Raven Kentucky Bluegrass Superior overall quality in a lower mow variety. Forms dense sod with compact growth habit. Recovers quickly from wear and abuse. Holds deep color well. Resists heat and humidity. For sun to semi-shade.	3-4	1-2	Fine	E	F	G	G	G	G
Preakness Kentucky Bluegrass Excellent spring green up, disease resistant and beautiful medium green color make this a superior Bluegrass variety.	3-4	1-2	Fine	E	G	G	G	G	G
Creeping Red Fescue Very fine-bladed fescue with high shade tolerance. Cold and drought resistance. Does not hold up well in heavy traffic and wear when seeded alone. Usually combined with bluegrass and ryegrass in mixes. Use in shade or sun.	5-6	3-4	Very Fine	F	F	E	P	G	G
Chewings Fescue Very fine-bladed, shade tolerant fescue often used with bluegrass, ryegrass and creeping red fescue. Better wear tolerance than creeping red. Good drought & cold tolerance. High thatch formation seeded alone. Shade or sun.	5-6	3-4	Very Fine	F	F	E	F	G	G
Ambrose Chewings Fescue Ambrose is the best performing Chewings Fescue in North America. It exhibits a distinct deep-dark green, fine textured, shade tolerant turf.	4-5	2-3	Fine	E	G	E	E	E	G

	New Lawn	Over- Seeding							
Sheep Fescue An excellent bunch type grass for dry, sandy, gravelly infertile sites. Attractive bluish-green color.. Mixes well with Wildflower seed.	3-5	1-2	Fine		G	G	G	E	E
Reliant II Hard Fescue Low maintenance, shade tolerant fescue often used with bluegrass, ryegrass and creeping red fescue. Better wear tolerance than creeping red. Good drought & cold tolerance. Shade or sun.	3-5	2	Very Fine	G	E	E	G	E	E
Falcon IV Turf Type Tall Fescue Prefers infrequent mowing, low fertility and deep root watering. Good seedling vigor, establishes quicker than other hard fescues. Drought tolerant.	8-10	3-4	Fine	E	E	E	E	E	E
Pennant II Turf Type Perennial Ryegrass Extremely dark green color with tiller rivaling elite bluegrasses. A low maintenance, lower growing variety. Highly disease resistant. Enhanced endophyte for natural insect resistance. Use in sunny to lightly shaded areas.	5-6	3-4	Med Fine	E	E	F	E	G	E
Pearl Turf Type Perennial Ryegrass Lush, dark green color. Fine texture. Enhanced seedling vigor, making it an excellent choice for overseeding. Higher density allows for lower mowing height. Contains high levels of endophyte. For sun to light shade.	5-6	3-4	Med Fine	E	E	F	E	G	E
Stellar Turf Type Perennial Ryegrass Improved with high endophyte for natural insect and stress resistance. Produces quality turf with very good density and overall disease resistance. Use in sunny to lightly shaded areas.	5-6	3-4	Med Fine	G	E	F	E	G	E
Palmer IV Turf Type Perennial Ryegrass A fine-bladed, high quality ryegrass with good wear tolerance. Deep green color. Naturally insect resistant. Shows excellent resistance to grey leaf spot. Good cold tolerance. For sun to light shade.	5-6	3-4	Fine	E	E	F	E	G	E
Prelude III and Prelude IV Turf Type Produces consistently high quality, rich dark-green turf. Has superior resistance to leaf spot, red thread, brown patch, and dollar spot. Excellent cold tolerance. Withstands lower mowing heights. Use in sun to light shade.	5-6	3-4	Fine	E	E	F	E	G	E
Perennial Ryegrass, Common Common variety of fast growing, medium-bladed bunch grass. Does best in medium to high fertility soils. Has fair to good cold tolerance. Establishes quickly when well rooted. Tolerates wear and traffic well. For sun to light shade.	5-6	3-4	Med	G	E	F	G	F	G
Annual Ryegrass, Common Lighter green, medium coarse bladed grass used primarily for temporary seeding. Provides quick cover and erosion control. Usually lives only one year but can winter-over in mild winters. For sunny to semi-shaded areas.	6-8	3-4	Med Course	F	E	F	G	F	G
Creeping Bent Grass For Golf Course Application.	2	.25							

Crown Vetch Planting Instructions: Available upon request. Medium height, long-lived perennial spreading rhizomatous growth habit, useful for erosion control. Showy pink to purple flowers in the summer. Slightly acidic to neutral, well-drained soils. Slow to establish (sow with cover crop such as Ryegrass), but aggressive and stable after one or two seasons. Fair drought tolerance, cold hardy. Seeding Rate 20-40 lbs. per acre.
