

Page's® Family Garden Fund Raiser

Get Growing! Thank you for considering Page's® Family Garden Fund Raiser. I have worked with 4-H educators and youth organizations to develop a program that offers an excellent product and great consumer value, so everyone can afford to be a part of your success.

A 'Good Fit' Fundraiser - Sell the great outdoors, exercise & nutrition, at your next fundraiser! Flower and vegetable seeds are welcomed alternatives to traditional fundraiser choices. Gardening is fun, and offers health and environmental benefits. Page Seed is ready to help your organization reach fund raising goals in a safe, environmentally friendly way.

Fundraising is a way to introduce community service and reinforce safety rules. Young fundraisers and their families are encouraged to follow these safety tips when selling Page's® Family Gardens:

Always sell to someone that your family members know!

Always sell before dark!

Absolutely no selling at homes you don't know!

Always sell with a parent or guardian!

Watch Your Revenues Grow! For more than 112 years, Page's® Seeds has introduced gardening to generations, nationwide. We suggest a two-week fundraiser, scheduled to begin late January or February, but no later than the end of March. These are 'winter doldrums' months, when families begin to think about spring and seed sales peak. The Page's® Fundraiser gardens are priced so that consumers purchase an 'affordable' product and great value while your organization earns 65% of sales!

How To Order Your Sell Kits Each kit includes a product information sheet and an order sheet that doubles as a collection envelope. Order 1 kit per person. (There is no charge for the kit). When ordering Sell Kits, please provide the information listed below:

- Organization's tax exempt identification number (if applicable).
- Start and completion sale date.
- The day that you must have product in-hand (allow 10 business days).
- Method of payment (check or credit card).
- A contact and the complete ship-to address.

Finally, we are selling a product we are proud of! From container gardening to backyards, everyone needs what we have to sell. Thank you, Page Seeds, for helping us not only to raise money, but to do it with pride.

- Carol Loeffstedt
Chenango County, New York 4-H Youth Program Coordinator
